Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner discussed the need to have Applicant file a terminal disclaimer, disclaiming a patent issued upon copending Application No. 11/332,849, or alternatively to cancel claim 6 of the copending application by preliminary amendment, thus obviating the need to file a terminal disclaimer. The Examiner further discussed amending the claims to place this application in condition for allowance. Ms. Wenk agreed to confer with the Applicant, and take the appropriate action to resolve the issue of obviousness-type double patenting over the copending application..
